

Readymix & Mortar

Tracey Concrete Ltd have been supplying readymix concrete to both the farming and construction industry for over forty years. Modern batching facilities, a large fleet of trucks and experienced drivers ensure Tracey Concrete are in a position to supply, within a radius, any project irrespective of size or type of concrete. As members of the **Q.S.R.M.C.** (Quality Scheme for Readymix Concrete) Tracey Concrete has a **U.K.A.S.** approved Laboratory where our technical team conduct various tests from the raw materials to the finished

product and are available to give the customer technical back up where needed.

Apart from the many jobs such as foundations or the supply and laying of concrete yards etc, Tracey Concrete has supplied numerous large projects such as schools, reservoirs, hospitals, factories etc many with quantities of up to 400 cubic meters of 35N pump mix poured per day.
