In November 2010 Harbour Way was the largest transport project supported by the European Regional Development Fund (ERDF) Convergence programme in Wales. Providing a 4.5km dual carriageway link from the M4 at Junction 38 and the docks, serving as a vital link to West Wales, the UK trunk road and motorway network and mainland Europe.
The £107m project linking Port Talbot and the docks to the M4 was completed in 2013. Tracey Concrete supplied 1500mm dry weather channel S&S pipes to the Project.
