

Omagh Hospital Case Study

Project

In 2013 McLaughlin & Harvey Construction Limited were awarded as the main contractor for the £75M first phase of the new Omagh Hospital Co. Tyrone N. Ireland.

Brief

Tracey Concrete were chosen as suppliers of all the concrete drainage products. Working with Mc Laughlin and Harvey Construction Tracey Concrete were able to meet deadlines supplying numerous loads of precast manhole rings and cover slabs up to 3.6M in diameter and various sizes of Spigot and Socket concrete pipes.
